There is far more to the H1 than a central tourbillon. The aesthetics of this watch are beyond any I've ever worn, and the sound has a tick/tock clarity I've never heard before. Both history and artistry in a single piece. I rarely use the word 'masterpiece,' but the H1 is certainly a masterpiece, and far more than a central whirling escapement. Great pictures; I have two others to share by Harry Tan. Good holidays to all. Douglas
